## SME seeking a consortia in the field of microcapsule and nanoparticles

Dear colleagues,

Please find in the file attached the profile of an SME seeking to join a consortia for the H2020 call "[Novel nanomatrices and nanocapsules](#)" (NMP-06-2015).

LINK: <http://ec.europa.eu/research/participants/portal/desktop/en/opportunities/h2020/topics/2531-nmp-06-2015.html>

The name of the company is Nanocapsulas SL.

The company has installations for the production of microcapsules and the dispersion of nanoparticles.

It could be a reliable partner to bring into the market new products developed in a pre-industrial scale or in a research laboratory.

The company could be also a subcontractor for the SME instrument "[Accelerating the uptake of nanotechnologies, advanced materials or advanced manufacturing and processing technologies by SMEs](#)" (NMP-25-2014).

LINK: <http://ec.europa.eu/research/participants/portal/desktop/en/opportunities/h2020/topics/2592-nmp-25-2014.html>

If you want to contact with the company, please write an e-mail or phone to:

Mr. Juan Pacheco

Tel: +34 868 888 801

Many thanks in advance for distributing this partner profile among your regional stakeholders.

Kind regards,

Region of Murcia Office

## Partner Search Profile

<b>Title of the profile</b>	SME specialized on industrial production of microcapsule and nanoparticles
<b>Outline of the company capabilities</b>	<p>The name of the company is Nanocapsulas SL (<a href="http://www.microencapsulado.com">www.microencapsulado.com</a>). It is an SME seeking to join a project consortia. The company offers its knowledge to scale-up laboratory results into industrial production. It is difficult to produce micro and nano particles at a competitive prices; and in some cases, it is even harder to produce de micro and nanoparticles dispersions.</p> <p>For the call of “Novel nanomatrices and nanocapsules” (NMP-06-2015), the Spanish company Nanocapsulas SL offers its experience on the industrial design of dispersions, solving the technical problems that might arise and providing advice even for the design phase of the particles.</p> <p>For the call “SME instrument” (NMP-25-2014) the company offers its experience on bringing products into the market. It will be able to be subcontractor in a project. The role of Nanocapsulas SL could be to provide the final step of the industrial development, thus to switch into actual products what has been developed in a laboratory scale.</p> <p>Nanocapsulas is an SME established in 2011. The company is strongly oriented to develop industrial processes and to the production of microcapsules. The company has an industrial production plant located in the Region of Murcia (Spain). It offers its experience to a project consortia either as a partner or subcontractor to develop novel nanomatrices and nanocapsules.</p> <p>This products could be used in agrofood applications, for drugs delivery, in personal care or cosmetic or even as antimicrobial agents for housecleaning products.</p>
<b>Relevant calls</b>	<p>Novel nanomatrices and nanocapsules (NMP-06-2015) H2020 Deadline: 26 March 2015</p> <p>SME instrument (NMP-25-2014) H2020 First deadline 9 October 2014</p>
<b>Deadline for responding to this partner search</b>	31/12/2014
