Partner search: A secondary school from Poznan (Poland) is looking to join a consortium in the framework of Erasmus+ programme

The Karol Marcinkowski Secondary School in Poznan (PL) is looking for possibilities to join an international cooperation and exchange project for students in the framework of ERASMUS+ programme.

For many years our school has been one of the best schools in Poznan and Wielkopolska Region. Our students achieve spectacular results in school-leaving examinations which enable them to continue their education at the most desirable fields of study such as medicine, psychology and law.

Scientific successes of our students are accompanied by artistic and sports achievements. Our school choir 'Canticum Novum' and the theatre group 'Teatr BEZ Pretekstu' have achieved enormous successes in different types of festivals and reviews. What is more, for 15 years we have been organizing a Theater Festival for young artists from all over Poland.

The following foreign languages are taught in our school: English, French, German, Spanish, Japanese and Latin. It is worth mentioning that since 1991 our school has been conducting Polish – French bilingual section which means that French is taught intensively.

In recent years our school has offered the following profiles: mathematics and physics, biology and chemistry, law and French – Polish bilingual classes.

Conducting law-oriented classes, we are looking for partners who would like to cooperate with our students and deal with issues concerning law in their broadest sense.

The international contacts of our school are closely connected with French-Polish bilingual section and comprise the schools which are our exchange partners. These are schools in Rennes (France), the language school in Rochefort (Belgium). Equally important is the fact that for many years we have been cooperating with German schools in Frankfurt (on the Oder River) and Hanover.

Our school participates in a wide range of charity actions, which are aimed at other teenagers, the disabled or people in need. We organize concerts as fund-raising actions.

In order to meet our students' expectations we established close cooperation with so-called 'Blue school' and the ship-owner of 'Fryderyk Chopin'. As a result, our students have an opportunity to participate in an ocean voyage to Caribbean.

We are ready to cooperate and be a reliable and responsible partner for any school in Europe. Do not hesitate to contact us if you are interested in cooperation with our school.
